

Nature's technologies report evaluation sheet

Group name: _____

Design challenge: _____

Team members: _____

- Professional presentation of report
 - Overall impression is clean and professional
 - White space, easy to read, consistent font
 - Clearly laid out, organized, easy to navigate
 - Captivating and descriptive visuals
- Described company (title, team profiles, expertise, etc.)
- Stated design challenge (problem statement)
- Summarized key information from Innovative Solutions worksheet
- Provided 50+ natural models with brief descriptions
- Provided detailed taxonomy in an organized format
- Provided detailed selection of natural models
 - at least 6 included
 - represented spectrum of functions (form, process, and system)
 - provided visuals of the selected models (pictures or drawings)
 - detailed mechanisms for each of the selected models
- Provided potential design idea(s) that stem from selected natural models (at least 1)
- Summarized findings (NB: audience has no science or biological background)
- Provided relevant references/bibliography
